### Casting Forms

With the new casting forms you can quickly and easily fuse diverse 3D objects (figures, jewelry, tiles and flowers) using Pâte de Verre techniques. Simply coat the the form with PrimoPrimer (35 652 xx), let it dry and fill with frits. Fuse with the included heating curve, remove from the form, and it is ready! For the larger flower forms there are 2 special slumping molds, which are available additionally. With careful handling, the forms are usable for a long period of time and because of the special mold material and the PrimoPrimer, the objects receive a very fine and high gloss surface. Exact operating instruction with specific weights for the frits and the fusion curves are included with each form.

Have fun!

### Casting-Formen

Mit den neuen Casting-Formen können Sie schnell und unkompliziert diverse 3D-Objekte (Figuren, Schmuckteile, Fliesen und Blumen) in Pâte-de-Verre-Technik schmelzen. Einfach die Form mit Primo Primer (35 652 xx) einstreichen, trocknen und mit Kröseln füllen. Mit der beiliegenden Schmelzkurve brennen, entformen und fertig! Für die größeren Blumenformen sind zusätzlich noch 2 spezielle Absenkformen erhältlich. Die Formen sind bei sorgfältiger Behandlung sehr lange verwendbar und durch das spezielle Formmaterial und den PrimoPrimer bekommen die Objekte eine sehr feine und hochglänzende Oberfläche. Eine genaue Gebrauchsanweisung mit Gewichtsangaben für die Krösel und der Schmelzkurve liegt jeder Form bei. Viel Spaß!
